

Newspaper Websites Search Access Price List – Existing NLA Licensees

(Media Monitoring Material)

Introduction

This price list is for existing NLA licence holders. It outlines the pricing for organisations given **search access** to a database of newspaper **website** content by a licensed press cuttings agency or web aggregator.

This Price List should be read in conjunction with the NLA general **Price Lists**.

Please note that ‘Search’ fees are inclusive of alerting rights and should therefore be applied instead of standard ‘Web’ fees, not in addition to them. All prices quoted are exclusive of VAT.

Fixed Rate

The fee for search access is based on the number of recipients of an electronic service and the organisation’s headcount. Simply select the number of recipients of an electronic service in the first row of the table below and then select your corresponding headcount. Read across to determine the fee payable.
